

Advanced Fleet Intelligence Solution

Solving your fleet management and compliance challenges, simply and affordably.

Rayven's ready-to-go, cloud-based Advanced Fleet Intelligence solution is designed to address all your monitoring, management and regulatory needs, providing you with 24/7 transparency and predictability.

Empower your team with forecasting and predictions, actionable insights, real-time alerts and notifications, visualizations, and reporting - Rayven's Advanced Fleet Intelligence solution has everything you need to always stay one step ahead.

Designed to be future-proof, Rayven's flexible platform allows you to bring data from any asset or source, including **heavy vehicles & trucks, yellow goods, cranes, forklifts** or any other fleet vehicle; into one place for monitoring, analysis and optimization.

Predictive Maintenance

Fleet Efficiency

Fleet Utilization

Fleet Driver Safety

Fleet Compliance

Real-Time Monitoring

Predict & Alert

Analyze & Report

Continuous Compliance

Real-time fleet management & compliance intelligence

Fleet Utilization

Monitor utilization rates, easily identify location, under or over utilization, as well as out-of-hours or out-of-location usage across your fleet.

Fleet Efficiency

Get real-time insights into how efficient your fleet is by looking at fuel efficiency, driver behavior and mechanical performance.

Fleet Driver Safety

Monitor your drivers' behavior in real-time and ensure that their driving is not causing a threat to themselves or others.

Fleet Compliance

Make sure you are always compliant by monitoring working/driving hours, breaks, rest periods and fleet maintenance records.

Automated Reconciliation

Easily identify the location and movement of your fleet, automate the process of reconciling trips to increase accuracy and auditability.

Predictive Maintenance

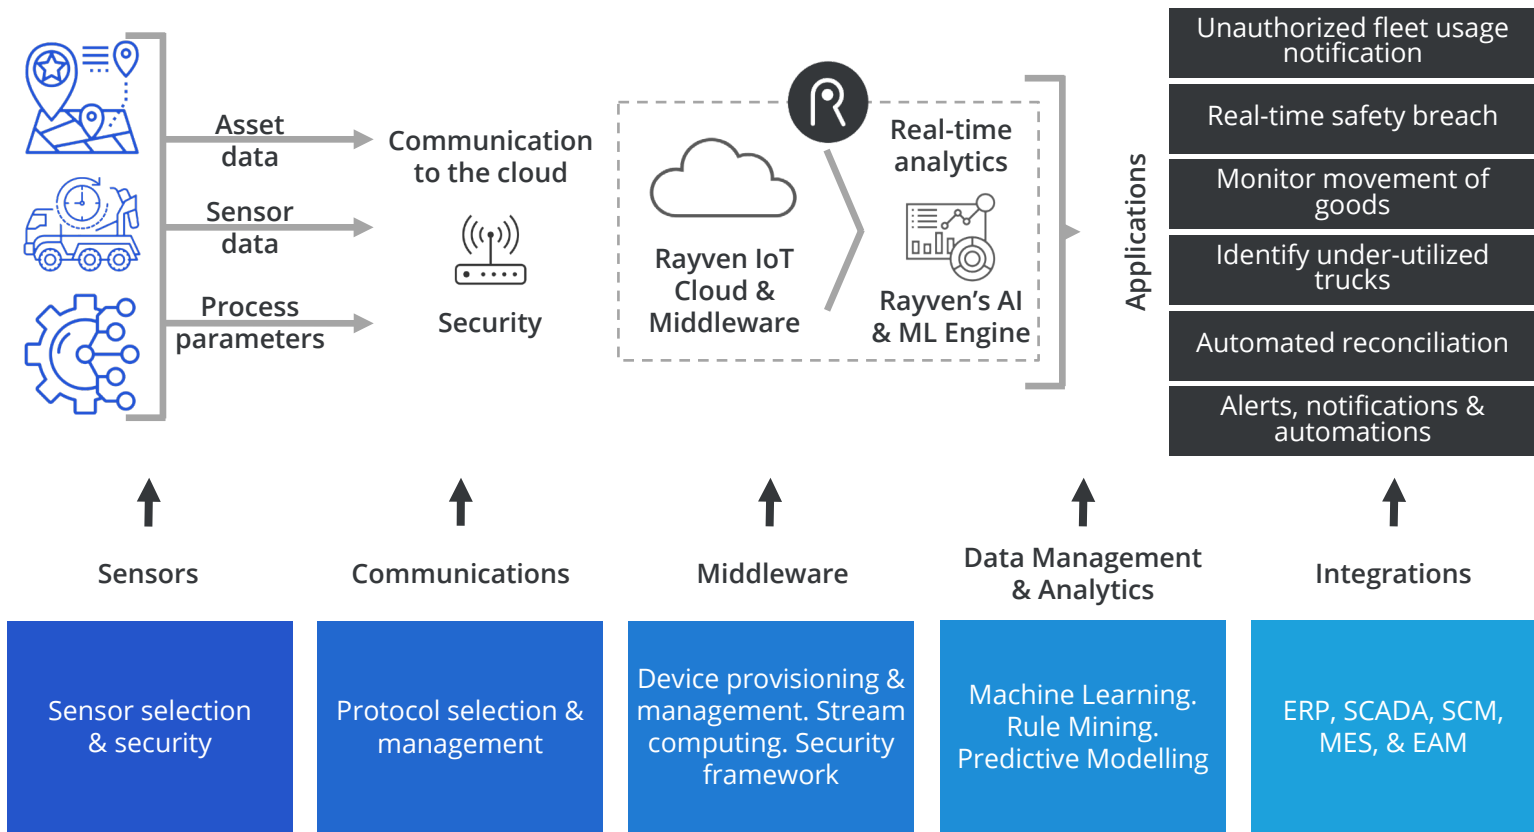

Intelligent asset monitoring allows you to predict and prevent failures, improving safety, asset lifespan and efficiency.

Get started in weeks for a lot less than you might think

Rayven's ready-to-go, cloud-based Advanced Fleet Intelligence solution will give you all the monitoring abilities you need, plus much more, in weeks with no hidden-costs.

Solution technology stack

Security.

Rayven's IoT platform has been built with security top-of-mind. With data encryption and other security techniques and technologies factored into all points of the IoT environment.

Connectivity.

Get the complete picture by using our extensive range of ready-to-go IoT connectors. You can funnel all your data into Rayven's IoT platform, giving you a true single source of truth to drive real business outcomes.

Data integrity.

You can't make a business decision without complete confidence that the data you are looking at is 100% complete and accurate. Rayven has developed proprietary processes that can ensure its integrity.

Data Science.

Rayven's industrial data science team lives and breathes data, uniquely understanding the value it can bring to your business. IoT is not about collecting *lots* of data, it's about collecting the *right* data and doing smart things with it. Our experts will guide you through this process, ensuring you get the most out of your solution.
